"I was the target for about every onceivable article of culinary bric-abrac that adorns the kitchen of our mee happy home," sighed Norman Fraser as he managed to keep the audience at the Lymer 'matinee' in a more or less constant titter.

France became involved in police meshes over an alleged_assault in a lower Bereiania street apartment house and in which a Hifwalian woman of mail and rather delicate mien was the omelaining witness.

"When I returned home, the first thing that greeted my appearance was a hurtling stew-pan. I specessfully dodged this only to meet with a halffilled bottle of toilet water. I sort of lost count, your Honor, of the various little utensils that whizzed past my head, under a forceful and accurate aim of this woman.

"Efforts towards peace or a recon iliation were met by a renewal of the attack. I was seized by this comlainant, who grabbed me by the shirt and succeeded in tearing generous amples from its decorated bosom."

Fraser went on to state that the inuristed woman, not being satisfied with her work of demotition of her erring spouse's shirt, then concentrated the attack on her husband's nether garments. His trousers were east to the four winds and finally found picturesque lodgment across the wires of the electric company.

Beer In the Home

Your home will be healthier when you make free use of a good beer.

The sturdiest peoples of the world drink beer---drink it from childhood to age.

The early history of our country proves the benefit of drinking beer, for the men who guided the young nation through the taials and perils of war and internal dissensions were men who not only drank beer but personally interested themselves in the brewing.

Knowing the value of beer as a food for mind and body they encouraged its use by those about them.

The proper drinking of beer is good for the weak and the well.

Be sure to order for your home.
